NOTICE

We are pleased to announce a Faculty Development Program (FDP) on "Effective Integration of Pedagogy & Technology" in association with IIT, Bombay scheduled on the 6th and 7th of April 2024. The program will run from 9:30 AM to 5:00 PM on both days.

Attendance at this FDP is mandatory for all faculty members of the MCA, AI & DS, and Computer Engineering Departments. Your active participation is vital in ensuring the success and effectiveness of this program.

FDP Details:

Date: 6th & 7th April 2024

Time: 9:30 AM to 5:00 PM

Dr. Priyanka Pawar

One Page Report on Faculty Development Program (FDP) On "Effective Integration of Pedagogy & Technology" in Association with IIT Bombay

Date: April 6th & 7th 2024

Time: 10:00 AM - 5:00 PM

Venue: Sir Vishweswarayya Hall, Indira College of Engineering and Management

The Faculty Development Program (FDP) for Computer Science domain faculty was conducted on April 6th and 7th, 2024, focusing on innovative teaching methods and effective integration of educational technologies. The sessions aimed to enhance pedagogical skills and foster engaging learning environments.

Session Details:

Introductions and Setting Expectations:

The program commenced with introductions and setting clear expectations for participants, creating a conducive atmosphere for learning and collaboration.

Active Learning: Why, What, How:

Participants delved into the significance of active learning methodologies, exploring the rationale behind its implementation, identifying suitable strategies, and understanding practical implementation methods.

Effective Teaching with Visualizations:

This session emphasized the importance of incorporating visual aids in teaching, providing insights into leveraging visualizations to enhance comprehension and retention of complex concepts in Computer Science.

Generative AI for Teaching and Research:

Attendees were introduced to the concept of Generative AI and its applications in both teaching and research domains, offering innovative approaches to content creation and problem-solving.

Tools Utilized:

Muddy Points: A technique to identify and address areas of confusion or misunderstanding among students.

Word Cloud: Engaging visualization tool representing frequently used words or concepts, facilitating discussions and brainstorming sessions.

Mentimeter: Interactive presentation software enabling real-time audience engagement through polls, quizzes, and surveys.

EdPuzzle: Platform for creating interactive video lessons, enhancing student engagement and comprehension.

ChatGPT: AI-based chatbot facilitating interactive discussions and providing instant feedback.

Padlet: Collaborative digital canvas for brainstorming ideas, sharing resources, and fostering collaborative learning environments.

The FDP concluded with participants equipped with new insights, practical strategies, and innovative tools to enhance their teaching methodologies in the Computer Science domain. Feedback from attendees was overwhelmingly positive, indicating a strong desire for further exploration and implementation of the techniques and tools introduced during the program.

Overall, the FDP served as a valuable platform for professional development, empowering faculty members to effectively integrate modern teaching methodologies and educational technologies into their instructional practices, ultimately enriching the learning experiences of students in Computer Science disciplines.
