Activity 1 For Advanced Learners

Dr. Kiran Devade, HOD, FE formally welcomed all the first year engineering students. Sir introduced the Guest speaker Mr. Kapil Mehrotra. (Vice President Business Service Centre, Schindler). Guest delivered a talk as Key note Address, in which he explained in detailed about History of inclusion of the induction program in the syllabus of technical institutions. He also focused on the importance of such programs to schedule at the beginning of college for engineering students. Sir Covered some issues in his talk as follows, new entrants go through years of strenuous preparation and get accustomed to it. Often they lose the connection from social life and recreational activities. On the other hand, engineering demands a personality in all dimensions Induction Program is designed for smooth transition from preparation environment to Engineering Curriculum.

Activity 2 for Slow Learners

Alumni Sessions were conducted for the slow learners in which the senior student counselled and explained about the study plan to be followed.

The alumni explained about the importance of attendance, role of aptitude in placement. And also motivated the students and asked them to enjoy college days with academics. At the end of the session questions were asked by participants and well answered by alumni.

Activity 3 for Advanced Learners

Students were taken for an industrial visit at Shri Sant Tukaram Sahakari Sakhar Karkhana Ltd., Kasarsai – Darumbre.

All the students get awareness about actual working of Sugar manufacturing industry with the help of many mechanical components like Pump, Compressor, Furnace, Cutters, Different Conveyors....etc.

Also they get in detail knowledge of Thermal Power plant on spot by understanding the working of the boiler, condenser, steam turbine, cooling tower.....etc

Activity 2 for Slow Learners

Alumni Sessions were conducted for the slow learners in which the senior student counselled and explained about the study plan to be followed.

The alumni explained about the importance of attendance, role of aptitude in placement. And also motivated the students and asked them to enjoy college days with academics.

At the end of the session questions were asked by participants and well answered by alumni.

Activity 3 for Slow and advanced Learners

Special lectures were arranged for slow and advanced learners with remedial classes for providing inputs to slow and advanced learners. The results can be seen from the improvement in the marks of some cases.

2.2.1. The institution assesses the learning levels of the students and organizes special programmes for advanced learners and slow learners

The institute has started classifying students' learning levels based on prerequisite exams. For subsequent years it is classified on the basis of their previous examination, results and assessment by faculty. Students are divided into two groups based on these evaluations: slow learners and advanced learners. Their academic requirements are examined during a series of departmental meetings, and special efforts are made to enhance the performance of slow learners. Advanced students are helped to improve their abilities and motivated to set and meet difficult academic goals.

For first-year engineering students, bridge courses are offered at the start of the academic year to help Students Bridge the gap between various boards and the SPPU curriculum. Alumni sessions are held to offer advice to students, provide tips on how to manage their studies, and share their college experiences.

Advanced learners are encouraged to actively participate in a variety of initiatives like hackathons, learnathons, and other technological activities like NPTEL courses. Understanding the needs of the industry students are prepared for placements, industrial tours, industry expert lectures series, soft skills and aptitude sessions. Also encouraged them to go for Project Based learning through mini projects.
