Teaching relevant things
Making a layout about the topic to be covered in a day
Letting code during lecture

I think, learn through Fun way to better understand everyone, not boring any lecture when teacher taught Animation ppt made. an each topic concept clear to understood for better way

Made a group an institution for learning after the class discussions on the topic with 3-5 students group they discussed about that topic teacher ask to students, concept clear are not then again teach and perform on stage students also teach that topic then automatically inside the brain.

That's all about and some experience teacher to need institution for better improvement students.

N.A

1. Overall it is good so no suggestions.

Excellent teaching, should share ppt before explanation as we can prepare for lecture

21. Give three observation / suggestions to improve the overall teaching – learning experience in your institution.

475 responses

1. The faculties of the institution should focus more on implementation and applications of the subject which they are teaching rather than focusing on theory concepts which leads to rote learnings and becomes exam centric.
2. The college should converse with the students directly and ask for their opinion and and difficulties which they are facing rather than floating feedback forms
3. College should conduct trainings, certification courses and extra classes within the working hours each semester which helps students in their internships and placements so students don't have to join externally for this.
4. The college should minimize writing work as much as possible in each subject and promote practicals and projects.
5. The students who really are interested in growing themselves and want to have a good career, and are regular, should be prioritized always
6. The faculties should be compelled to work on a project each semester so their knowledge will be enhanced and thereby lecture delivery performance

- 1) Need of experienced faculty for teaching who have knowledge of that subject
- 2) Need to increase the site visits
- 3) faculty should perform the practical more.
