Centre for Industrial Mathematics, Bhaskaracharya Pratishthana, Pune announces a course on **"Machine Learning (ML) and Applications Using Python"**.

Duration -18 Hours (9 AM to 4.30 PM, 6 hours per day)

Course Dates: 8, 9 and 10th February 2023, (Wednesday to Friday)

Venue: off line, in AV Hall, Bhaskaracharya Pratishthana, Pune

Background: Industrial Applications of machine learning are very much demanding. This also requires a sound understanding of the mathematics, specifically Linear Algebra, Statistics and Python Programming. The course is aimed at becoming ready for industry projects using machine learning.

Objectives:

- To be ready for industry projects using **Machine Learning**
- Acquire the knowledge of Linear Algebra, Statistics, Python, and Machine Learning

Expected Outcome:- Ability to develop use cases using Machine Learning in PYTHON

Course Contents: Basics of Linear Algebra, Statistics, Python Programming, Machine Learning and Industry Applications.

Course Highlights:-

- Experienced faculty
- Hands on Exercises
- Examples with Industrial Applications
- Focus on Projects

Eligibility: Any Graduates or Students of Science/Engineering/Mathematics and working professionals from industries.

(Certificates shall be provided after successful completion of the course)

Registration Fees: INR 1950/- per participant. This includes breakfast, lunch and tea. (Based on availability, shared accommodation shall be provided in the guest house for outstation participants at INR 750/- for three days)
