CONCLUSION

Further upgradation of the Leave Management System for various types of organisations with multiple hierarchies can help in reducing paperwork, help achieve error free tabulation and calculation of leaves.

LIMITATION:

- The leave status cannot be cleared until and unless the Registrar approves/ rejects the application.
- The staff cannot cancel the leave application once made.
- The system will fail if the server fails, but the data will remain stored in the database.

FUTURE SCOPE :

- The leaves that have not been availed by the staff in the given session can be automatically carried forward to the next working session depending on the HR policy of the organisation.
