

1.1 Curriculum Planning and Implementation

1.1.1 The Institution ensures effective curriculum delivery through a well-planned and documented process Write description of initiatives in not more than 200 words

As Institute affiliated with SPPU follows the curriculum regularized by SPPU. The institute Calendar is prepared in line with SPPU academic calendar and inline with that department academic planner prepared considering the suggestions of DAAC.

Before commencement of the semester, teaching load is allocated to the faculties and they prepare the course file. Institute follows the outcome-based teaching-learning process.

Institute has adopted the online teaching-learning process also. To enhance the teaching and learning process different tools are used like MS Teams, uses of ICT tools, Video lectures, Project-Based learning, Zoom etc.

The Institute follows a transparent and robust method for internal assessment. The faculty evaluates the performance of students at regular intervals. The implementation and delivery of the curriculum monitored by the Academic Monitoring committee.

The effective implementation of the curriculum is ensured by supplementing classroom teaching with expert lectures, seminars, in-house, and industry-supported projects, industrial internships, case studies, internal tests etc.

The Schedule of SPPU examinations is displayed on the notice board.

Faculty members are encouraged to impart the revised curriculum by attending the syllabus implementation workshops.

For better improvement of the academic standard, feedback is taken from the stakeholders, analyzed and used for the improvement of the curriculum.

Report on ICT tools usage

Date: 12/02/2022

Details:

“Teaching in the Internet age means we must teach tomorrow’s skills today”.
ICT (Information and Communication Technology) refers to efficient management of information with the use of hardware and software.
Can be used to transmit, store, create, share or exchange particular task. It plays a very important role in the way we communicate, learn and live.

We at Basic Engineering Department use MS teams for conducting lectures, giving assignments, evaluation, conducting quiz, attendance, share the study material and create teams for different divisions.

Use one drive for multiple accessing of the data shared on cloud and perform the collaborative tasks, storing the recordings of the lectures.
Whiteboard is used as a digital canvas for sharing the content.

We also have created YouTube channel in which we have shared the practical recordings, numerical solving methods, explanation for difficult topics, so that the students can view the videos as per their convenience.

Many of us use power point presentations for delivering the lectures, share the links for NPTEL videos, links for e-books, MCQs solving methods.

At the beginning we also use Zoom for conduction of bridge course, as the students mail ID of Microsoft Outlook are being created after the confirmation of admission. Once the students get the mail ID we gradually shift to MS teams and train the students and make them familiar with all the tools available in MS teams.

Parent Teachers Meet are also conducted on Zoom, as the parents do not have the MS mail ID.

Google classroom is also used for sharing the content, google forms for conducting exams and evaluating and posting the results, attendance marking, and getting feedbacks from students.

Cameras have been installed in each classroom for virtual view of black board teaching.

Important notifications are being shared on Telegram Channel for the faster communication both to students and parents.
